

## State Representative David Scribner

Dear Friends,

It continues to be an honor and a pleasure to serve as your state representative for the 107th District.

This Legislative Report contains information about what the legislature did this session to address the state budget, and focuses on a number of issues important to the residents of Brookfield and Bethel.

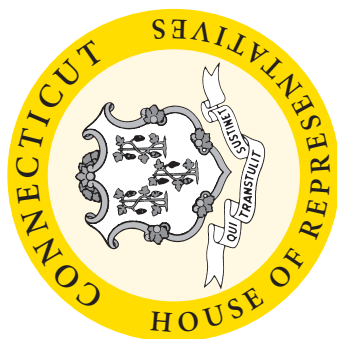

If you have any questions or comments concerning the 2005 session, please contact my office at any time.

Sincerely,

Rep. Scribner meets with a 3rd grade class from Huckleberry Elementary School during a visit to the State Capitol.

## 2005 LEGISLATIVE REPORT

State Representative  
**DAVID SCRIBNER**  
Proudly Serving the 107<sup>th</sup> District  
Brookfield ★ Bethel

Rep. Scribner speaks on the floor of the House during the 2005 Legislative Session.

PROTECTING YOUR INTERESTS

Voting for Fiscal Responsibility

The budget that was offered by the majority this year included heavy increases in taxes and spending, as well as a violation of the state spending cap and the squandering of the state surplus. For these reasons, I voted against the budget package.

The budget increases spending 8.9%, cuts absolutely no areas of spending, and exceeds and violates the publicly established Constitutional spending cap by \$110 million. It spends \$650 million of the \$700 million surplus, while including \$738 million in new taxes. In my mind it is completely inappropriate to increase taxes when we have a \$700 million surplus. This is particularly true when you consider that we are in the highest taxed state per capita in the entire country.

Eminent Domain

The issue of the use of eminent domain came to the fore during the recent U.S. Supreme Court decision concerning New London. The court ruled that Connecticut's eminent domain laws are constitutional but stressed that the state could amend them. It is clear that action should be taken as quickly as possible considering the sweep and impact of this court decision. Unfortunately, the legislative majority defeated an amendment aimed at limiting eminent domain. I joined many of my colleagues in pressing for a special session of the legislature to address this matter and to preserve the private property rights of Connecticut residents.

Reforming the Legislature

Both the state Senate and House took up and passed campaign reform packages, however agreement could not be reached between to the two chambers concerning how state elections are funded and paid for. Governor Rell has assembled a task force to hammer out the details, and will convene a special session of the legislature once the task force reports its plan.

This year House Republicans proposed negotiating the state budget in the open instead of behind closed doors, giving 72-hour public notice before voting on any new law and requiring a public hearing on any tax increase. These proposals were shot down by the majority.

Fighting for Fair School Funding

The distribution of education dollars continues to be lopsided. Many of my colleagues and I will continue the fight for fair funding of public education. Currently the state school aid formula now sends \$9,000 per pupil to students in the cities, while suburban children receive state funding as low as \$100.

Transportation

The Governor’s proposal to implement a \$1.3 billion comprehensive transportation restructuring for the state was approved by the legislature this year, which is aimed at improving state highways and interstates, as well as upgrading public transportation. As Ranking member of the legislature’s Transportation Committee I worked to steward these measures through the Committee and the House.

Cell Phone & Pocket Bike Bans

I also co-sponsored a measure which was passed by the legislature and signed by the Governor which bans the use of hand-held cell phones while driving. I also worked on the successful passage of legislation that prohibits the use of pocket bikes on all public roads, and expands the required use of booster seats for children.

Graduated Licensing

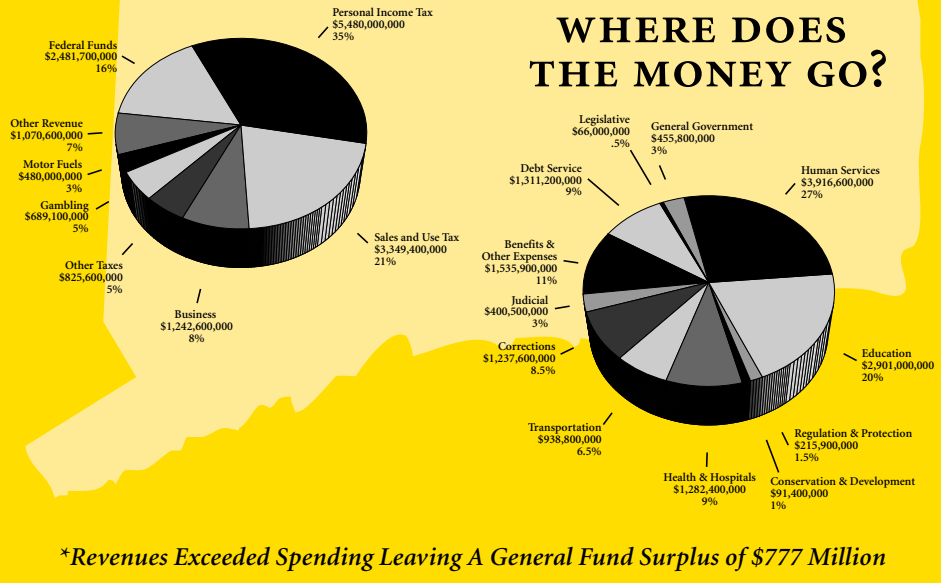

The legislature also enacted legislation I authored that requires 16-and 17-year- olds learning to drive under learner’s permits to have a minimum of twenty instead of eight hours of behind-the-wheel instruction before they qualify for driver’s licenses. It also prohibits licensed drivers of this age from driving between the hours of 12:00 a.m. to 5:00 a.m. unless they are travelling because of employment, school or religious activities, or medical necessity.

Rep. Scribner and other legislators look on as Governor M. Jodi Rell signs new Booster Seat Legislation.

BUDGET ENDING JUNE 30, 2005  
THE 2005 GENERAL FUND AND  
THE SPECIAL TRANSPORTATION FUND  
TOGETHER SPEND \$14.4 BILLION

WHERE DOES THE MONEY COME FROM?

For Seniors and Veterans

This year the legislature passed measures that provide discounted in-state tuition to military personnel stationed in Connecticut. We also provided a variety of additional benefits for members of the Connecticut National Guard. Money was allocated to implement the federal Medicare Part D prescription drug program, and the state’s Commission on Aging was moved from the Department of Social Services to the legislative branch.

Identity Theft

Due to the increased incidence of identity theft the legislature passed a bill allowing consumers to place a freeze on their credit report and requires a credit bureau to place the freeze within five days. The credit freeze prohibits a creditor from giving information to any third party without the creditor’s permission.

Stem Cell Research

The legislature passed a measure providing a total of \$100 million over ten years for embryonic stem cell research. Of these funds, \$20 million came from the 2005 budget surplus. Over the next eight years, funds from the Tobacco Settlement Fund will go toward the Stem Cell Research Fund. All doctors that are treating patients for infertility will be required to explain and promote the donation of embryos for stem cell research. The new law also prohibits the cloning of a human being.
